Portfolio: <https://portfolio-mu-nine-69.vercel.app/>

PROFESSIONAL SUMMARY

Final-year B.Tech IT student with hands-on experience building full-stack web apps using the MERN stack. Developed production-quality projects covering role-based auth, REST API design, MongoDB modeling, and responsive React UIs. Built and deployed multiple real-world applications with a focus on backend architecture and clean frontend design.

TECHNICAL SKILLS

Frontend: React.js, Tailwind CSS, HTML5, CSS3, JavaScript (ES6+)

Backend: Node.js, Express.js, REST API Design, JWT Authentication, Middleware

Database: MongoDB, Mongoose

Tools: Git, GitHub, Postman

Concepts: JWT, Multer, bcrypt, MVC, RBAC

PROJECTS

HireHub – MERN Job Portal | MongoDB • Express.js • React.js • Node.js • Tailwind CSS • JWT

- Architected a full-stack job portal with three scoped user roles (Student, HR, Admin), each with dedicated dashboards and permission-controlled API routes.
- Implemented JWT auth with protected routes on client and server; built complete job lifecycle — post, apply, upload resume (Multer), track status (Pending/Selected/Rejected) in real time.
- Developed real-time-like notification system, along with pagination, keyword search, and multi-filter API; deployed on Vercel — <https://hire-hub-iota.vercel.app>

MERN Authentication System | MongoDB • Express.js • Node.js • JWT • bcrypt

- Built standalone auth service with registration, login, JWT session management, bcrypt hashing, and modular middleware structure for scalable authentication handling.
- Ensured secure API access using token-based authorization across protected routes.

MERN Todo Application | MongoDB • Express.js • React.js • Node.js

- Developed full CRUD task manager with RESTful backend; implemented state management using React hooks for dynamic UI updates without page reloads.

Personal Portfolio Website | React.js • Tailwind CSS

- Designed responsive portfolio with smooth navigation, project showcases with live demos. Deployed on Vercel — <https://portfolio-mu-nine-69.vercel.app/>

EXPERIENCE

JavaScript Developer Intern — Sunflowee Biztech

Jan 2023 – May 2023

- Developed dynamic web features using JavaScript and frontend frameworks for client-facing applications.
- Designed and integrated REST APIs using Node.js and Express.js; implemented JWT-based authentication in a real production codebase.
- Worked with MongoDB for data storage using Mongoose; contributed to team codebase improving code quality and feature delivery.
- Gained hands-on experience working in a collaborative development environment following real-world workflows.

EDUCATION

B.Tech – Information Technology

2023 – Present

Silver Oak College of Engineering & Technology, Ahmedabad **CGPA: 8.10 (Sem 7)**

Diploma – Information Technology

2020 – 2023

Aditya Silver Oak Institute of Technology, Ahmedabad **CGPA: 9.07**

Secondary (10th)

2020

The New Little Flower School **62%**

HIGHLIGHTS

- Diploma CGPA 9.07 — top performer in the IT department.
- Built HireHub solo — handled complete full-stack development from schema design to deployment.
- Developed multiple full-stack applications demonstrating strong backend and API design skills.
- Consistent GitHub commit history across all projects, reflecting regular coding practice beyond academics.
