PROJECTS

HireHub — Job Portal | MongoDB · Express.js · React.js · Node.js · Tailwind CSS · JWT

Live: <https://hire-hub-iota.vercel.app/> **GitHub:** <https://github.com/harshberwa/hirehub>

- Architected a three-role job portal (Student, HR, Admin) with RBAC, protected frontend routes, and authorization middleware on the backend.
- Configured JWT Authentication with bcrypt hashing, email verification, and Multer-powered resume upload with duplicate application prevention.
- Engineered job posting, application tracking, HR approval flow, and admin dashboard with search, filters, and pagination.
- Deployed frontend on Vercel and backend on Render with MongoDB Atlas — hire-hub-iota.vercel.app

MERN Authentication System | MongoDB · Express.js · Node.js · JWT · bcrypt

GitHub: <https://github.com/harshberwa/mern-auth-system>

- Designed a secure auth service with registration, login, bcrypt hashing, and JWT-protected routes; structured using MVC and validated all endpoints in Postman.
-
