

HARSH BERWA

Full Stack Developer | MERN Stack Developer

Ahmedabad, Gujarat | +91 8849188619 | harshberwa2004@gmail.com

LinkedIn: <https://linkedin.com/in/harsh-berwa> | GitHub: <https://github.com/harshberwa> | Portfolio: <https://portfolio-mu-nine-69.vercel.app/>

PROFESSIONAL SUMMARY

Full Stack Developer specializing in the MERN stack with hands-on experience building scalable, secure, and production-ready web applications. Skilled in RESTful API development, JWT authentication, role-based access control (RBAC), cloud deployment, and responsive UI development. Passionate about solving real-world problems through clean architecture and modern web technologies.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, React Router DOM, Axios, Responsive UI Design

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, bcrypt.js, Middleware, Role-Based Access Control (RBAC)

Database: MongoDB, Mongoose, MongoDB Atlas

Deployment & Architecture: Vercel, Render, Environment Variables, MVC Architecture

Developer Tools: Git, GitHub, Postman, VS Code, npm, ChatGPT, Claude AI

Professional Skills: Problem Solving, Team Collaboration, Communication, Debugging, Adaptability, Time Management, Analytical Thinking

PROJECTS

ExpenseFlow – Expense & Invoice Management System | React.js, Node.js, Express.js, MongoDB, JWT, Tailwind CSS

Live: <https://expenseflow-79wdhca7u-hire-hub.vercel.app> **GitHub:** <https://github.com/harshberwa/expenseflow>

- Built a full-stack financial platform to streamline business expense tracking, client management, and billing workflows with Admin/Staff role-based access control (RBAC).
- Implemented secure JWT-based authentication, protected routes, bcrypt.js password hashing, and RESTful API endpoints with custom authorization middleware.
- Engineered automated invoice PDF generation using jsPDF and html2canvas; integrated Resend API for invoice email sharing; and optimized large dataset handling through dynamic filtering, search, pagination, and analytics dashboards.
- Deployed the full-stack application on Vercel and Render with MongoDB Atlas cloud database integration while delivering a fully responsive dark/light mode user interface.

HireHub – MERN Stack Job Portal | React.js, Node.js, Express.js, MongoDB, JWT, Tailwind CSS

Live: <https://hire-hub-iota.vercel.app/> **GitHub:** <https://github.com/harshberwa/hirehub>

- Built a role-based recruitment platform supporting Student, HR, and Admin workflows with JWT authentication, protected routes, and custom authorization middleware.
- Designed end-to-end job lifecycle features including job posting, applications, saved jobs, applicant management, HR approval workflows, and admin-level user/job management.
- Integrated Resend API for automated email verification and deployed the application using Vercel, Render, and MongoDB Atlas with a responsive dark/light mode Tailwind CSS frontend.

MERN Auth System | React.js, Node.js, Express.js, MongoDB, JWT, bcrypt.js

GitHub: <https://github.com/harshberwa/mern-auth-system>

- Developed a reusable authentication boilerplate with secure user registration, login, and JWT-based session handling.
- Applied bcrypt.js password hashing and backend middleware to protect restricted API endpoints and strengthen application security.

EXPERIENCE

JavaScript Developer Intern — Sunflowee Biztech, Ahmedabad Jan 2023 – May 2023

- Designed reusable UI components and delivered frontend functionality for client-facing web applications using JavaScript.
- Improved form validations, resolved UI bugs, and applied Git version control across a collaborative multi-project codebase.

EDUCATION

Bachelor of Technology in Information Technology

Silver Oak College of Engineering and Technology | CGPA: 8.25

Diploma in Information Technology

Aditya Silver Oak Institute of Technology | CGPA: 9.07

ACADEMIC ACHIEVEMENTS & CERTIFICATIONS

- Achieved 10 SPI in Final Semester of B.Tech IT.
- Postman API Fundamentals Student Expert — Postman
